Customer Journey Map

Introduction

The Customer Journey Map illustrates the complete experience of a loan applicant while interacting with the Smart Lender Loan Approval Prediction System. It identifies user interactions, expectations, emotions, responsibilities, and improvement opportunities throughout the loan approval process. This analysis helps in designing a user-centric, efficient, secure, and intelligent system.

Customer Journey Map: Smart Lender Loan Prediction System						
Credit Card Applicant	Goal: Obtain a fast, secure, transparent, and accurate prediction regarding credit approval eligibility.					
Journey Stages	Stage 1: Awareness	Stage 2: Eligibility Check	Stage 3: Application Submission	Stage 4: Machine Learning Evaluation	Stage 5: Prediction Result	Stage 6: Post-Prediction
Actions	Learns about online credit services.	Reviews eligibility requirements.	Enters personal and financial information.	Submits the application for automated evaluation.	Views approval or rejection outcome.	Applies for the credit card or improves eligibility.
 Touchpoints	 Official Website	 Eligibility Information	 Application Form	 Machine Learning	 Prediction Dashboard	 Support and Service
 Customer Thoughts	Which credit card is suitable?	Am I eligible?	Did I enter the information correctly?	Will the prediction be accurate/fair?	Why was I approved or rejected?	How can I improve future eligibility?
 Customer Feelings	 Interested	 Curious	 Hopeful	 Anxious	 Satisfied or Disappointed	 Motivated to Improve
• Process Ownership	Marketing Team	Eligibility Verification Module	Applicant	Machine Learning Engine	Prediction Engine	Bank Administrator

Journey Summary

The Smart Lender Loan Approval Prediction System simplifies the entire customer journey by reducing manual effort, improving prediction speed, enhancing transparency, and providing intelligent decision support. The proposed solution enables applicants to quickly understand their loan eligibility while assisting financial institutions in making efficient and consistent approval decisions.

Conclusion

The Customer Journey Map demonstrates every interaction between the applicant and the Smart Lender Loan Approval Prediction System, from initial awareness to the final prediction outcome. Understanding customer behaviour, expectations, emotions, and pain points enables the development of a secure, user-friendly, intelligent, and efficient loan approval platform.
