| Project Name  | Smart Lender: Machine Learning-Based Loan Approval Prediction System |
| Maximum Marks |                                                                      |

## Communication

### Communication Plan:

Effective communication is essential for the successful development and demonstration of the Smart Lender Loan Approval Prediction System.This document outlines the communication strategy followed by the team to ensure smooth coordination with stakeholders, timely updates, efficient issue resolution, and proper feedback management throughout the project lifecycle.

| S. No | Communication Type     | Frequency | Channel I Tool                 | Participants                              | Purpose                                                                     |
|-------|------------------------|-----------|--------------------------------|-------------------------------------------|-----------------------------------------------------------------------------|
| 1     | Team Standup           | Daily     | WhatsApp Group I MS Teams      | All Team Members                          | Share daily progress, plan tasks, and remove blockers                       |
| 2     | Progress Update        | Weekly    | Google Meet I Email            | All Team Members, Project Guide           | Review weekly progress, discuss completed tasks, and plan next steps        |
| 3     | Issue / Bug Discussion | As Needed | WhatsApp Group / GitHub Issues | All Team Members, Developer               | Discuss issues, assign tasks, and track resolutions                         |
| 4     | Stakeholder Review     | Bi-Weekly | Google Meet I Email            | Team Members, Project Guide, Stakeholders | Review project status, get feedback, and ensure alignment                   |
| 5     | Final Demo Rehearsal   | Once      | Offline I Google Meet          | All Team Members                          | Practice final demonstration, check presentation flow, and ensure readiness |

|   |                     |      |                       |                                               |                                                                     |
|---|---------------------|------|-----------------------|-----------------------------------------------|---------------------------------------------------------------------|
| 6 | Final Demonstration | Once | Google Meet / Offline | Team Members,<br>Project Guide,<br>Evaluators | Present the project,<br>answer questions, and<br>get final feedback |
|---|---------------------|------|-----------------------|-----------------------------------------------|---------------------------------------------------------------------|

### Communication Challenges & Resolutions:

| S.NO | Challenge Faced                                                    | Resolution   Action Taken                                                                             |
|------|--------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------|
|      | Delayed responses due to different schedules of team members.      | Fixed daily standup time and used WhatsApp for quick updates to ensure timely communication.          |
| 2    | Difficulty in understanding technical issues between team members. | Used screen sharing during meetings and documented solutions for better clarity and future reference. |
| 3    | Version conflicts while working on the same files.                 | Used Git & GitHub for version control and followed proper branching and merging strategies.           |
