

Project Demo Planning

Date	03 July 2026
Team ID	
Team Size	3
Team Leader	Chakali Basavaraju
Team Member 1	Girish C
Team Member 2	Shaik Sameer
Team Member 3	
Team Member 4	
Project Name	Smart Lender: Machine Learning-Based Loan Approval Prediction System
Maximum Marks	

Project Demo Planning:

A well-structured demo plan ensures that the **Smart Lender Loan Approval Prediction System** is presented clearly, professionally, and effectively.

This document outlines the demonstration flow, key features to highlight, and responsibilities of each team member to ensure a smooth and impactful presentation.

S.Nö	Section	Description	Duration	Responsible Member
1	Welcome and Project Overview	Introduction to the team, demo objectives, and overall project context	2	Girish C
2	Data Management & ML WorkfOW	Explanation of data collection, preprocessing, feature engineering, and model development.	4	Girish C
3	Web Application Design & Tech Stack	Overview of system architecture, UI design, and backend integration using Flask	3	Chakali Basvaraju
4	Live Core Feature Demonstration	Demonstration of user login, loan application submission, and real-time loan approval prediction.	5	Chakali Basavaraju

5	Flask App Deployment & Scalability.	Discussion on deployment using Render, database integration, and scalability considerations	3	Girish C
6	Conclusion & Future Enhancements	Summary of achievements and discussion of future improvements (e.g., Explainable AI)	3	Girish C

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Highlight challenges in manual loan approval and need for automation
2	Solution Overview	Explain system design using Python, Flask, and Machine Learning.
3	Live Feature Demonstration	Show complete user journey from login to loan approval result
4	Q&A Session	Address questions related to model accuracy, data privacy, and system reliability
