Project Name	Smart Lender: Machine Learning-Based Loan Approval Prediction System
Maximum Marks	

Field	Details
Testing Tool Used	JMeter
Type of Testing	Load Testing, Stress Testing, Spike Testing
Target Module API	Loan Approval Prediction API

Test Environment	Localhost (Python Flask Server on Local Machine)
------------------	--

Performance Testing

Performance Testing

Performance testing evaluates how the system behaves under normal, high, and extreme load conditions. It helps identify bottlenecks, measure response time, and ensure system reliability during real-world usage.

Step 1: Testing Overview

S.No	Test Scenario [Description	No. of Virtual Users	Duration (se
1	Normal Load Test — Multiple users accessing prediction API	10	60
2	High Load Test — Simulate heavy concurrent users	50	120

3	Stress Test — Push system beyond normal capacity	100	180
4	Spike Test — Sudden increase in user load	200	60
Test Date		03 July 2026	

Step 2: Test Scenarios
